Note: The medical profession takes the view that the parent's/carer's consent to medical treatment cannot be delegated. This view is explicit in the Children's Act 1989. Thus medical consent forms have no legal status and a doctor or nurse insisting on the consent of a parent/care has the right to so. For this reason we do not recommend that Leaders insist on parents/carers signing the statement above. However, it can be a comfort to medical staff to have general consent in advance from parents/carers or to have a Leader on hand able to sign forms required by the medical authorities.

Please state (briefly) hill walking experience i.e. area, frequency and whether your wish to lead or assist in leading a walking group:
