

Empower others to have their own adventure

Become an adventurous activity adviser

We are currently looking for advisers for a range of adventurous activities: archery, air rifles, tomahawk throwing, canoeing, kayaking, bell boating, stand-up paddle boarding, sailing and power boating.

Are you a current and active practitioner in providing the activity for young people?

Could you act as the 'go-to expert' for questions about running the activity within Scouting?

Would you enjoy encouraging adults and young people to gain adventurous activity permits or qualifications, organising training or permit assessment courses for your activity, supported by our team of assessors?

Can you use data to communicate with permit holders whose permit is due for renewal and coordinate renewals and reassessments?

What are you waiting for? Get in touch for an informal discussion –
