Community impact project!

1. Identify a local need. Investigate what issues and challenges exist in your chosen community – it could be local, national or international.
(This could be something like the effect of Covid-19 in your local area, Mental health, LGBTQ+ issues, Dementia, Global warming, ANYTHING!)
2. Plan action. Decide what issue your section should take action on and what you want to change. Talk to your section about what actions you would like to take.
(Maybe prepare a presentation or pitch for your section about your plan of how to support your social issue).

Note for leaders:

These community impact project activities will all count towards step 1&2 for the community impact staged award.
